< Easy Spirits

The 36-inch Table Tapper beverage dispenser was clearly conceived with the lazy in mind: It'll pour your guests up to 116 ounces of beer (more than double the serving of a standard pitcher) and can be plunked down just about anywhere (kitchen table, bar ... nightstand?). And because the tube comes crafted from the ultra-dense plastic used in bulletproof windshields, it can survive even the hardest parties. \$99 at www.tabletappers.com.
